

Small Business Development Centers
Helping businesses start, grow, and prosper.

ENVIRONMENTAL REGULATIONS

**Understanding your
environmental regulatory
requirements is fundamental to
operating a sustainable business.**

The Pennsylvania SBDC's Environmental Management Assistance Program (EMAP) consultants provide free and confidential environmental compliance assistance to new and existing small businesses.

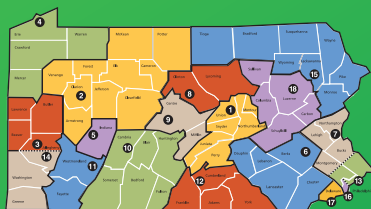

EMAP can help you with:

- Understanding the environmental regulatory requirements at your business
- One-on-one consultation and on-site assessments
- Calculating emissions from all sources
- Preparing and submitting requests for determinations, permit applications and plans
- Understanding ongoing permit requirements
- Setting up customized record keeping and reporting systems
- Finding alternative materials and processes to help you go green and reduce your regulatory burden
